

## Implementation

We teach French across Key Stage 2. The school uses the "Physical French phonics" by Sue Cave to support the teaching and learning of French phonics. This provides clear understanding of sounding out words in order to read more effectively.

They use a variety of the following techniques to encourage children to have an active engagement with French:

- Games – in order to develop vocabulary through repetition, reading, writing, speaking and listening skills.
- Role-play – these should relate to the situations the children may find themselves in the future.
- Action songs and rhymes – to develop phonetic skills, memory skills and to further vocabulary.
- We build children's confidence through praise for any contribution they make in the foreign language, however tentative.

## Impact

Through the high quality first teaching of French taking place, we will see the impact of the subject in the following ways:

- Children will become aware that a language has a structure, and that the structure differs from one language to another.
- Children will develop their language and communication through development of the four key skills of speaking, listening, reading and writing.
- Children will enrich their language learning by developing an understanding of the French culture.
- Children will transfer to KS3 effectively and successfully and will be well prepared to continue and develop their language skills.
